BMJ in the News is a weekly digest of BMJ stories, plus any other news about the company that has appeared in the national and a selection of English-speaking international media.

This week’s (13-19 Nov) highlights:

- The BMJ South Asia Awards generated coverage across the region, including The Times of India, The Economic Times and Punjabi Tribune
- The BMJ’s US Research Editor, Jose Merino, was interviewed by HealthNewsReview about a recent study on industry payments to US journal editors
- A BMJ Open study on the effects of health and social care spending cuts was covered by several outlets, including The Times, The Independent and Daily Mail
- A JECH study on the ageing effects of heavy drinking and smoking generated widespread global coverage, including the New York Post, Hindustan Times and TIME
