

# The AUSTIN TWENTY

Only the unrivalled resources and standardised experience of the AUSTIN MOTOR CO. enable them to produce, in the **Austin Twenty**, the finest car for all-round use, reliability, and power. Because it is already sold at the lowest price consistent with the quality for which it is famous, no reduction in cost is anticipated. Deferred Payments can be arranged if desired.

*"The car has done nearly 4,000 miles, and I find it completely fills all your claims for it . . . I am getting 17 miles per gallon of No. 1 Shell on my rounds daily, and 24 m.p.g. on long runs in this hilly district."*

Dr. T. F. WILSON, Chesterfield.

# NESTLÉ'S MILK

*is free from tubercle germs and other harmful organisms.*

The President of the Tuberculosis Society of Great Britain, in an article in the *British Medical Journal* of April 23, 1921, writes :—

"The amount of Tuberculosis conveyed to infants and young children in milk derived from dairy cows suffering from tubercle is enormous. It is estimated that over one million dairy cows in this country alone are tuberculous, and there seems to be no improvement in this disgraceful state of affairs. . . . **Sterilised and proprietary milks are quite safe, and free from tubercle, and should be used in preference to unboiled cow's milk.**"
