## Acute coronary syndromes

This Clinical Review contains an error (*BMJ* 2015;351:h5153, doi:10.1136/bmj.h5153). The fifth sentence in the section titled “Non-ST elevation myocardial infarction and unstable angina” should begin by saying: “Anticoagulation with subcutaneous

fondaparinux 2.5 mg daily . . .” [not “Anticoagulation with oral fondaparinux 2.5 mg daily . . .” as was published].
