BRITISH MEDICAL JOURNAL

Weekly. Annual Subscription, United Kingdom, Irish Republic, £12 12s.; Abroad, £7 7s. ($21.00)

and its associated specialist journals

BRITISH JOURNAL OF OPHTHALMOLOGY
Designed for the clinician and research worker and includes original articles, case notes, information on new appliances, book reviews.

(Combined subscription for the two Ophthalmic journals, Inland £15; Overseas £16 ($46.00).)

OPHTHALMIC LITERATURE
Abstracts of articles on the wide field of ophthalmology published throughout the world. Each volume contains some 6,000 abstracts—covering one year.

Six issues a year plus index. Annual Subscription, Inland £8 8s.; Overseas £9 ($26.00). (For combined subscription see above.)

JOURNAL OF CLINICAL PATHOLOGY
Original and specially commissioned articles on each branch of pathology, with prominence given to its clinical application. Technical methods, notes on new or improved apparatus, book reviews.

Annual Subscription (six issues), Inland £4 4s.; Overseas £4 15s. ($14.00).

BRITISH HEART JOURNAL
Original work on the heart and circulation—anatomical, physiological and pathological.

Annual Subscription (six issues), Inland £4 4s.; Overseas £4 15s. ($14.00).

ARCHIVES OF DISEASE IN CHILDHOOD
Devoted to child health and disease, with emphasis on clinical paediatrics. Original articles by paediatricians and other specialists.

Annual Subscription (six issues), Inland £4 4s.; Overseas £4 15s. ($14.00).

BRITISH JOURNAL OF PHARMACOLOGY AND CHEMOTHERAPY
Reports on original work in all branches of the subject, including experimental chemotherapy. Biological and pathological studies.

Annual Subscription (9 issues, 3 vols. in 1967), Inland £15 15s.; Overseas £16 10s. ($48.00).

JOURNAL OF NEUROLOGY, NEUROSURGERY AND PSYCHIATRY
Original articles on current research, throwing light on practice in neurology, neurosurgery and psychiatry.

Annual Subscription (six issues), Inland £4 4s.; Overseas £4 15s. ($14.00).

ANNALS OF THE RHEUMATIC DISEASES
Original articles by authorities in the U.K., U.S.A. and elsewhere on every manifestation of the rheumatic diseases. Summaries in English, French and Spanish.

Annual Subscription (six issues), Inland £4 4s.; Overseas £4 15s. ($14.00).

THORAX
Original work on the anatomy, physiology and pathology of the chest and heart. Descriptions of techniques and apparatus used in modern cardiac surgery.

Annual Subscription (six issues), Inland £4 4s.; Overseas £4 15s. ($14.00).

GUT

Annual Subscription (six issues), Inland £4 4s.; Overseas £4 15s. ($14.00).

JOURNAL OF MEDICAL GENETICS
A new journal publishing articles on clinical, statistical, pathological, cytological and biochemical aspects of medical genetics.

Quarterly. Annual Subscription, Inland £3 3s.; Overseas £3 10s. ($10.00).

BRITISH JOURNAL OF VENEREAL DISEASES
Designed to disseminate, exchange and increase knowledge among consultants, practitioners, research workers, teachers and others concerned with the problem of venereal diseases.

Quarterly. Annual Subscription, Inland £3 3s.; Overseas £3 10s. ($10.00).

BRITISH JOURNAL OF INDUSTRIAL MEDICINE
Authoritative papers on all aspects of occupational medicine, e.g. the pneumoconioses, occupational cancers, industrial toxicology and psychology.

Quarterly. Annual Subscription, Inland £3 3s.; Overseas £3 10s. ($10.00).

BRITISH JOURNAL OF PREVENTIVE AND SOCIAL MEDICINE
Original work in the field, the emphasis on epidemiological methods and medical research.

Quarterly. Annual Subscription, Inland £3 3s.; Overseas £3 10s. ($10.00).

MEDICAL AND BIOLOGICAL ILLUSTRATION
Illustration and its application to the requirements of the medical and biological sciences.

Quarterly. Annual Subscription, Inland £3 3s.; Overseas £3 10s. ($10.00).

ABSTRACTS OF WORLD MEDICINE
Critical abstracts of important articles appearing in medical periodicals in every part of the world. Accent on what is new.

Monthly. Annual Subscription, Inland and Overseas £6 6s. ($18.00).

NEW JOURNALS

BRITISH JOURNAL OF MEDICAL EDUCATION
A medium for the interchange of medical education—Undergraduate, Postgraduate and Continuing.

Quarterly. Annual Subscription, Inland £3 3s.; Overseas £3 10s. ($10.00).

CARDIOVASCULAR RESEARCH
Covering all aspects of basic research on the study of cardiovascular disorders.

Quarterly. Annual Subscription, Inland £3 3s.; Overseas £3 10s. ($10.00).

duced on glossy paper which will reflect dissecting-room lights and so diminish the advantages of the new layout and setting. While there has been some increased reference to the functional significance of structures and occasional references to developmental and microscopic anatomy, the relatively small amount of attention still paid to these will probably continue to be a major criticism of the book.

There are, of course, other criticisms. There is far too little reference to the variability of structures or to the significance of such variability; there is no bibliography to lead the intending student to the appropriate text of embryology or physiology, and tracing the appropriate references will probably take him more time than the revised presentation saves, unless he receives guidance from his tutors. To rectify these omissions would not be difficult in future editions. These there undoubtedly will be, for this simple instruction manual, in size and price and layout and illustration, is a thoroughly useful product for dissecting-room use.

D. F. ROBERTS.

E.N.T. Surgery

This compact account of the clinical surgical diseases of the ear, nose, and throat includes three chapters that are rarely seen in such a work. The chapter on hypophysectomy by Angel James draws attention to the fact that the transscalatal approach to the hypophysis is now a surgical procedure in the hands of suitably trained otolaryngologists, as a palliative measure for certain forms of malignant disease, for diabetetic retinitis not responding to insulin, for malignant exophthalmos, and for Cushing's syndrome. It also shows that those undertaking this work in addition to surgical skill need a thorough knowledge of the endocrinological problems involved.

Two chapters on rhinosporidiosis and scleroma by Professor Satyanarayanas, of Madras, will be of special interest to those who are likely to encounter these disorders in tropical countries and in Eastern Europe. Tumours of the nose, sinuses, pharynx, and larynx are well covered by the editor of this section, Mr. Maxwell Ellis, but any future edition of this book would be enriched by a fuller account of the modern indications for tracheostomy.
