Facing up to the prescription opioid crisis

As a result of an editorial misunderstanding, figure 2 of this article by Irfan A Dhalla and colleagues (*BMJ* 2011;343:d5142, doi:10.1136/bmj.d5142) overestimates the number of deaths in Victoria involving oxycodone. Additionally, the data for the figure were provided by Angela Rintoul (and not taken from reference 5, as we had stated). We have now posted the correct

figure online (www.bmj.com/content/343/bmj.d5142/suppl/DC1).
