Antenatal corticosteroids for maturity of term or near term fetuses: systematic review and meta-analysis of randomised controlled trials

 OPEN ACCESS

In the conclusion section of this Research paper (*BMJ* 2016;355:i5044, doi:10.1136/bmj.i5044), the authors should have said that, “Delivery by scheduled cesarean delivery should

be delayed until 39 weeks 0 days to 39 weeks 6 days whenever possible to reduce the risk of respiratory morbidity.” We apologise for any confusion this may have caused.
