Inactive elders in Portugal . . . and other stories

Despite being a Roman goddess, Minerva recently showed a poor understanding of Latin (*BMJ* 2016;355:i6053, doi:10.1136/bmj.i6053) when she described the fungus *Candida auris* as “a Latin combination of white and gold.” Aureus, as Roman

scholars should know, is the Latin term for golden, whereas auris represents an ear—from which the fungus was first isolated.
