## Corrections

In an editorial footnote to a letter from Dr. G. G. Muir (4 January, p. 58) the composition of the Joint Consultants Committee was incorrectly stated. It should have read: the Chairman; two members appointed by the Royal College of Physicians of London; two members appointed by the Royal College of Surgeons of England; two members appointed by the Royal College of Obstetricians and Gynaecologists; one member appointed by the Royal College of Physicians of Edinburgh; one member appointed by the Royal College of Surgeons of Edinburgh; one member appointed by the Royal College of Physicians and Surgeons of Glasgow; one member appointed by the College of Pathologists; one member appointed by the Royal Medico-Psychological Association; one member appointed by the Faculty of Anaesthetists; one member appointed by the Faculty of Radiologists; eleven members appointed by the Central Committee for Hospital Medical Services of the British Medical Association; two members appointed by the Central Dental Consultants and Specialists Committee of the British Dental Association; and one observer from Northern Ireland.

In the review of *Natural Antinutritive Substances in Foodstuffs and Forages*, by Iancu Gontzea and Paraschiva Sutzescu, published 16 November, p. 441, it is incorrectly stated that the book was first published in Hungary as a monograph two years ago. This should have read in Rumania.
