### Corrections

#### Dr. A. Glen

We much regret an error in the obituary of the late Dr. A. Glen (10 February, p. 360). From 1922 until 1937 he was assistant visiting physician at the Victoria Infirmary, Glasgow, not the Royal Infirmary as printed.

### Acid-base Disturbances

In the article by A. W. Grogono on "Assessment of Acid-base Disturbances Employing a Desk-Top Computer" (17 February, p. 381), the first equation in Table I included a + sign in error instead of a × sign in the term % $\text{LCO}_2 \times (\text{PB}-47)$ .
