### Corrections

Joseph Lister: The date of publication of his article in the *B.M.J.* on the "Antiseptic Principle in the Practice of Surgery" was 21 September, 1867, not 10 August as stated (1 April, p. 7). It is regretted that the year in which Lister's paper was read at the Dublin Meeting of the B.M.A. was also given incorrectly as 1887 (p. 44).

The numbers of deaths from scarlet fever in England and Wales should have been shown as "0" in the Table of Infectious Diseases and Vital Statistics for the week ending 11 March 1967 (1 April, p. 59).

The appointment of Mr. C. J. DEWHURST (8 April, p. 123) is to a chair, not the chair, of obstetrics and gynaecology tenable at the Institute of Obstetrics and Gynaecology.
