Corrections

Malta Meeting

The caption to a photograph accompanying the report of the Annual Clinical Meeting (19 April, p. 173) should have read, "Some of the audience at the opening ceremony in the Catholic Institute, Floriana, including (from the left) the Governor-General, Mrs. V. G. Griffiths, and Dr. G. Borg Olivier."

The first line of the second paragraph in the report of Dr. G. E. Crawford's paper (p. 177) should have read, "Treatment with ascorbic acid 700 mg. daily . . ."

Jaundice and Methyldopa

In the letter from Dr. A. Paton (12 April, p. 116) in the first line of the second paragraph it should read "a hepatic reaction" and not "hepatic" as was inadvertently printed.
