Corrections

Hon. Mrs. Noel Olivier Richards, M.D.

In our obituary notice (3 May, p. 318) it was stated that Mrs. Richards died on 11 May. This should have read 11 April.

Stress Effect of Antilymphocyte Serum

In the article by Professor E. J. Field and Mr. D. B. Cook (26 April, p. 227) the third line of the fifth paragraph should have read, "... it was possible to make measurements with as little as 0.1 or 0.05 ml. of plasma. . . ." The scale of plasma cortisol in Figure 2 should read from 0 µg. to 80 µg., each step being 10 µg.

L-Dopa in Parkinsonism

In the leading article on this subject (26 April, p. 202) the chemical name of dopamine was wrongly printed as 3-hydroxytryptamine. It should have been 3-hydroxytyramine.

Notice to Authors

When original articles and letters for publication are not submitted exclusively to the *British Medical Journal* this must be stated.
