Key:

A=application form/CV; I=interview; C=other documented evidence e.g. certificate/exam; R=references

All candidates must have demonstrable skills in written and spoken English that are adequate to enable effective communication about medical topics with patients and colleagues.

If the Primary Medical Qualification including clinical contact was not carried out using English, applicants must either:

- Have an academic IELTS score of at least 7.0 in each domain and an overall score of 7.5 within the same test to meet the GMC’s requirements

or

- Complete the medical Occupational English Test (OET) and achieve grade B in each of the four domains tested to meet the GMC’s requirements

If applicants believe that they have adequate communication skills but are unable to demonstrate this by one of the examples listed in the bullet points above, alternative evidence must be provided.
SECTION 3 Responsibilities and Expectations of the Role

3.1 Clinical
(a) Provision with Consultant colleagues of a service to Cambridge University Hospitals (CUH), with responsibility for the prevention, diagnosis and treatment of illness, and the proper functioning of the department;
(b) Out-of-hours responsibilities, including participation in Consultant on-call rota where applicable;
(c) Cover for colleagues' annual leave and other authorised absences;
(d) Participating in medical audit, the Trust's Clinical Governance processes and in CPD;
(e) Where it is agreed between the parties, work on behalf of CUH such as domiciliary consultations, or services provided by the Trust for other agencies, e.g. the prison service. (This excludes work done under direct arrangements between an individual Consultant and a third party, e.g. Category 2).

3.2 Education and Training
(a) Professional supervision and management of junior medical staff;
(b) Responsibilities for carrying out teaching, examination and accreditation duties as required and for contributing to undergraduate, postgraduate and continuing medical education activity, locally and nationally;
(c) If appropriate the post-holder will be named in the contract of junior staff as the person responsible for overseeing their training and as an initial source of advice to such doctors regarding their careers;
(d) All Consultant staffs are encouraged to undertake a formal “Training the Trainers” course.

3.3 Research
(a) Involvement in research, please refer to Section 5.5 for further information about research within the Department.

3.4 Leadership/Management
(a) To act in a professional manner and as a role model to other staff members;
(b) To perform your duties to the highest standard with particular regard to efficient and effective use of resources, maintaining quality and commitment to drive improvements
(c) All Consultants attend the Consultant Development Programme within a year of joining the Trust – to help hone the leadership and management skills they need to succeed at CUH.

3.5 Professional
(a) To accept personal accountability for own clinical practice and to work at all times within the GMC’s Good Medical Practice and Leadership and Management for all doctors;
(b) To promote and adhere, at all times, to CUH policies and procedures;
(c) To work within the Trust's policies and procedures, accepting that the resources available to the Trust are finite and that all changes in clinical practice, workload or developments requiring additional resources must have prior agreement with the Trust;
To accept corporate responsibility to work effectively and positively within the Trust performance framework to meet Trust targets;

To participate in professional continuing medical education; study leave is provided for this purpose, and the appointee will be entitled to apply to the Trust Study Leave Committee for a contribution to funding of this activity;

A willingness to undertake additional professional responsibilities at local, regional or national levels.

3.6 General Compliance

(a) To comply with all Trust Policies and Procedures, with particular regard to
- Risk Management
- Health & Safety
- Information Governance
- Confidentiality
- Data Quality
- Freedom of Information
- Equal Opportunities

(b) All staff have a responsibility to comply with the current infection prevention and control policies, procedures and standards and ensure they have received an annual update on infection prevention and control issues including hand hygiene. All staff should practice and encourage appropriate hand hygiene and act professionally to ensure the hospital environment is clean, safe and tidy;

(c) To perform your duties to the highest standard with particular regard to effective and efficient use of resources, maintaining quality and contributing to improvements;

(d) To follow all the Trust Security policies and procedures and be vigilant to ensure the safety and secure environment for care;

(e) All staff that have access to or transfers any data are responsible for those data, it must be kept secure and they must comply with the requirements of the Data Protection Act 1998 and the common law on confidentiality. All data must be kept in line with the Trust’s policies and procedures. Data includes all types of data i.e. patient, employee, financial, electronic, hard copies of printed data or handwritten data etc;

(f) The post holder is responsible for data quality and complying with the policies, procedures and accountability arrangements throughout the Trust for maintaining accuracy and probity in the recording of the Trust’s activities;

(g) The Trust is committed to carefully screening all staff who work with children and vulnerable adults. This appointment is therefore subject to a satisfactory Disclosure and Barring Service Disclosure of the appropriate Level if required;

(h) All staff will receive training on Child Protection - Safeguarding Children Policies and Procedures as part of Induction and annual updates, this will equip the post holder with the knowledge of what you will need to do if you have concerns about the welfare of a child/young person under aged 18;

(i) Participate in an annual Job Planning and Appraisal for Consultant and medical staff;

(j) To uphold the Trust Values and Behaviour standards;

(k) Perform any other duties that may be required from time to time.

Every post holder can make a difference to a patient’s experience. You will come across patients as you walk around the hospital; we rely on all our staff to be helpful, kind and courteous to patients, visitors and each other.
SECTION 4  
Job Plan and Timetable

4.1  Job Plan

A formal job plan will be agreed between the appointee and their Divisional Director or agreed delegate, on behalf of the Medical Director, three months after the commencement date of the appointee and will be effective from the commencement date of the appointment.

The job plan for the first three months will be based on the provisional timetable shown below.

<table>
<thead>
<tr>
<th></th>
<th>Monday</th>
<th>Tuesday</th>
<th>Wednesday</th>
<th>Thursday</th>
<th>Friday</th>
</tr>

</table>

The job plan will then be reviewed annually. The job plan will be a prospective agreement that sets out a consultant’s duties, responsibilities and objectives for the coming year. It should cover all aspects of a consultant’s professional practice including clinical work, teaching, research, education and managerial responsibilities. It should provide a clear schedule of commitments, both internal and external. In addition, it should include personal objectives, including details of their link to wider service objectives, and details of the support required by the consultant to fulfil the job plan and the objectives.

4.2  Provisional Timetable

The following provides scheduling details of the clinical activity and clinically related activity components of the job plan which occur at regular times in the week. Agreement should be reached between the appointee and their Divisional Director or agreed delegate with regard to the scheduling of all other activities, including the Supporting Professional Activities.

4.3  On Call Availability

There is no on-call commitment.
SECTION 5  The Department of Oral & Maxillofacial Surgery & Orthodontics

5.1   Introduction

The Department of OMFS and Orthodontics is a busy department covering all aspects of Maxillofacial Surgery, Orthodontics and Restorative Dentistry, providing a full range of sub-specialties including cleft lip and palate, head & neck cancer and facial deformity.

The Maxillofacial Surgery team is part of the multidisciplinary centralised head and neck cancer service, along with ENT, Plastic Surgery, Oncology and Radiology. Cleft Net East provides multidisciplinary care for the cleft population of the Eastern region, treatment is provided on a hub and spoke basis with the more specialised services offered at the centre.

5.2  Staffing: NHS and Academic

The present medical staff establishment comprises:

<table>

5.3 Relationships with other Departments:

The Department works closely with Plastic Surgery, ENT, Radiology and Oncology, as part of the Head and Neck cancer service and has close links with Neurosurgery and Paediatrics.
The department works closely with the CleftNet East in the provision of services to cleft patients.

5.4 Accommodation

There is a shared consultant office and secretarial support will be provided.

5.5 Research

The department has no active research facilities, but academic and clinical facilities are available by negotiation with the Clinical School and the relevant University Department, in consultation with the Trust's Director of Research and Development.
SECTION 6  General Information

Cambridge University Hospitals NHS Foundation Trust (CUH) in profile

We are one of the largest and best known acute hospital trusts in the country. The ‘local’ hospital for our community, delivering care through Addenbrooke’s and the Rosie, CUH is also a leading regional and national centre for specialist treatment.

The hospital fulfils a number of important functions; its three main core activities are clinical care, research and teaching. It is the local hospital for people living in the Cambridge area, providing emergency, surgical, medical and maternity care but as well as delivering care, it is also:

- A leading national centre for specialist treatment for rare or complex conditions such as organ transplantation, cancer, neurosciences and paediatrics. (For further information about clinical services [www.cuh.nhs.uk/services-0](http://www.cuh.nhs.uk/services-0))
- A government-designed biomedical research centre and part of the National Institute for Health Research (NIHR)
- One of six academic health science centres in the UK
- A university teaching hospital with a worldwide reputation
- A partner in the development of the Cambridge Biomedical Campus.

Our vision is to improve people’s quality of life through innovative and sustainable healthcare.

Our CUH Together Strategy has been developed with staff, patients and partners. Patients are central to everything we do and we want to ensure that CUH is an exciting and supportive place to work. Our vision is to improve people’s quality of life through innovative and sustainable healthcare. We will deliver our vision in a way that is consistent with our values of Together – Safe | Kind | Excellent, and the associated behaviours that define how we care for our patients and work with our colleagues and partners.

Our strategy has four key priorities:

- Improving patient journeys
- Working with our communities
- Strengthening the organisation
- Contributing nationally and internationally

We share our site with a range of other organisations including the University Clinical School, the National Blood Authority, and laboratories funded by the Medical Research Council (MRC), the Wellcome Trust and Glaxo SmithKline, University of Cambridge Hutchison/Cancer Research UK (CRUK) Cancer Centre and The Medical Research Council’s facility to house the Laboratory of Molecular Biology. The most recent addition is Royal Papworth Hospital which relocated to the Campus in April 2019. Building is currently underway on a new global R&D Centre and Corporate HQ for AstraZeneca.

In December 2018 it was announced that The Cambridge Childrens Hospitals will be added to the campus, the first phase is due to be open by 2023. The Childrens Hospital vision is to treat the whole child, not just the illness or condition.

The children’s hospital project will be delivered through an innovative joint proposal between ourselves, Cambridgeshire and Peterborough NHS Foundation Trust (CPFT), providing mental health services and the University of Cambridge, providing world-leading academic research. We are acutely aware that this hospital needs to provide support to develop and strengthen paediatrics across the whole region and we will be working with our networks to build a shared vision for this. The partnership is pioneering the full integration of physical and inpatient mental healthcare in the same setting, alongside ground breaking genomic science and mind and body mental health research to find new ways of preventing and detecting childhood diseases. The
hospital will provide a permanent and sustainable home for CPFT’s inpatient children and young people’s mental health services currently provided on the Ida Darwin site in Cambridge.

It is an exciting time for the city and the region. For us at CUH, being based at the heart of the Cambridge Biomedical Campus means we are perfectly situated to make the most of the opportunities that are arising.

We pride ourselves on the teamwork, energy and commitment of our excellent staff – they are our most important assets. Recognising this, we have taken a positive approach to supporting them in their work through schemes to help work-life balance, improvements in the working environment and initiatives to make it easier for staff to explore new career opportunities and to develop professionally and personally.

Cambridge University Hospitals - Board of Directors

Chair and Chief Executive:
Dr Mike More – Chair
Roland Sinker – Chief Executive

Non-Executive Directors:
Daniel Abrams
Adrian Chamberlain
Dr Annette Doherty
Professor Ian Jacobs
Ali Layne-Smith
Professor Patrick H Maxwell
Rohan Sivanandan
Professor Sharon Peacock

Executive Directors:
Nicola Ayton – Chief Operating Officer
Dr Sue Broster – Clinical Lead for Specialist Services Development
Mike Keech – Chief Finance Officer and Interim Director of Improvement and Transformation
Dr Ashley Shaw – Medical Director
Claire Stoneham – Director of Strategy and Major Projects
Lorraine Szeremeta – Chief Nurse
Ian Walker – Director of Corporate Affairs
David Wherrett – Director of Workforce

Cambridge University Hospitals NHS Foundation Trust in detail

Last year 58,086 men, women and children were treated as inpatients, 130,729 people attended accident and emergency, and there were 868,889 visits to outpatient clinics (2021/2022 figures). CUH medical staff hold clinics in 14 different regional hospitals so that patients do not have to travel to Cambridge. Nearly 100 of our Consultants hold some form of joint appointment with a dozen neighbouring hospitals.

CUH is a teaching hospital for medical undergraduates and postgraduates, nurses and students in other clinical professions and has a variety of initiatives to encourage life-long learning. Many training schemes are in place in our National Vocational Qualification Centre, Postgraduate Medical Education Centre and Learning Centre. Training schemes include cadet schemes in nursing, office technology, science, modern apprenticeships in clinical engineering and supporting training placements for biomedical scientists.

CUH has:
- Around 11,000 staff of which approx. 2,000 are medical and dental staff
- 5,573 births per year
During 2021/22 we saw a substantial increase in overall activity compared to 2020/21. This was primarily due to the lower activity in 2020/21 which saw the largest fall across outpatients (-178,000) during the first and second waves of COVID. Compared to pre-COVID levels (2019/20) there was an increase for A&E attendances, outpatients, births and day cases. Over the same period, in-patient care reduced by up to 14%.

Addenbrooke's history

Addenbrooke's was one of the first provincial, voluntary hospitals in England. The Hospital opened its doors in 1766 with 20 beds and 11 patients. Dr John Addenbrooke, a fellow and former Bursar of one of the Cambridge Colleges, left just over £4500 in his will "to hire and fit up, purchase or erect a small, physical hospital in the town of Cambridge for poor people".

In 1540, two centuries before Addenbrooke's was founded, the Regius Professorship of Physic in the University of Cambridge was founded by Henry VIII. Medical training on a modest scale developed at Addenbrooke's during the late 1700s, and in 1837 (the year of Queen Victoria's accession to the throne) the hospital became a recognised school of medicine.

Addenbrooke's grew rapidly during the 19th and early 20th centuries, as medical science developed. By the 1950s, the hospital was having difficulty accommodating the expansion generated by the introduction of the National Health Service.

In 1959, building began on a new 66-acre site south of Cambridge, and the first phase of the Hospital was opened by Her Majesty the Queen in May 1962. Work continued to provide the majority of Addenbrooke's as we know it today, with a fully-fledged Clinical School being established in 1976.

History

1766 Addenbrooke's Hospital was opened in Trumpington Street
1847 The first general anaesthetic using ether at Addenbrooke's was carried out two weeks after it was first used in the USA
1918 Addenbrooke's welcomed its first female medical student
1962 New site on Hills Road was officially opened by the Queen
1966 The first kidney transplant in the NHS was carried out at Douglas House Renal Unit
1968 Professor Sir Roy Calne carried out the first liver transplant in the NHS
1975 The first open heart surgery was carried out at Addenbrooke's
1981 Addenbrooke’s first whole body scanner opened by Prince of Wales
1983 The Rosie Hospital was opened on the Addenbrooke’s Campus
1984 Last patient left the ‘old’ Addenbrooke’s Hospital site in Trumpington Street
1992 Addenbrooke's NHS Trust formed
1995 MRC Cambridge Centre for Brain repair opened by Duke of Edinburgh
2004 Addenbrooke's Hospital becomes a Foundation Hospital as is known as- Addenbrooke’s Hospital Cambridge University Hospitals NHS Foundation Trust
2006 Addenbrooke’s Hospital was named one of five National Institute for Health Research comprehensive biomedical research centres
2007 New European headquarters for Cancer Research UK based on the campus were opened by the Queen
2009 CUH and local partners in clinical care, education and research became one of the government’s new academic health science centres, forming an alliance called Cambridge University Health Partners
2009 CUH was named by Dr Foster as one of the country’s best performing trusts for patient safety
2012  CUH is now the designated level 1 Major Trauma Centre for the East of England region
2014  Our new electronic patient record system (EPIC) was implemented at CUH making us the first hospital in the UK to go paperless
2019  The Royal Papworth Hospital was opened by Queen Elizabeth II

Positioning for the future

Cambridgeshire is one of the fastest growing counties in the UK and it is estimated that the number of people over 45 years of age will rise by 55% over the next 20 years, and the county will see the continued expansion of research, business and high-tech industries.

Planning is already well advanced for additional capacity to meet this growing local demand. But it is not just a matter of providing extra beds and recruiting extra staff. The hospital needs to ensure high standards of patient care by supporting training and education for staff, and work closely with NHS partners and others to ensure that care is tailored to the needs and expectations of users. This is likely to involve developing some alternatives to hospital-based care.

Another challenge will be to ensure that improvements in clinical facilities keep up with the rapid pace of research investment, and that processes and governance support this growing research activity, some of which involves sensitive ethical, legal and social issues.

CUH contributes to the economic strength of the greater Cambridge area as a major employer and, with our research partners, to the biotechnology sector. As a public benefit corporation, the new NHS Foundation Trust will work in partnership with other local bodies, primarily local authorities and education providers, to support sustainable economic development in the locality.

Research and development

Cambridge medical research enjoys a world-wide reputation. More organisations and more individuals continue to be attracted to the city; working alongside each other they have created one of the richest pools of clinical and scientific knowledge and expertise not only in the country but in the world. At CUH this is reflected in clinical teams working in the hospital alongside world-class scientists from a wealth of internationally renowned organisations such as the Medical Research Council (MRC) which shares the hospital campus. Doctors and scientists collaborate across disciplines and specialties and it is this co-existence of experience and expertise that fosters translational research – turning basic science into new drugs and new therapies giving patients innovative and excellent care.

We work with many partners in other NHS organisations, universities, research councils, research charities and industry to provide infrastructure and networks to build research capacity and support clinical research.

With the University of Cambridge, CUH is a partner in the National Institute for Health Research (NIHR) Cambridge Biomedical Research Centre (CBRC). This partnership uses our combined strengths in biomedical science – the science that forms the basis of medicine including scientific laboratory-based knowledge and understanding – and translates them into clinical research. Established in 2007 the centre was recently awarded funding of £114.5m for 2012 to 2017. It was judged by the international selection panel as to have an outstanding breadth of world-leading investigators and represented the UK’s primary academic resource in biomedical research.

Outstanding facilities for research exist in Addenbrooke’s Clinical Research Facility (ACRC) which includes the Wellcome Trust Clinical Research Facility and the Clinical Investigation Ward. For example the CIW includes a research endoscopy suite and area dedicated to intravenous treatment including cancer chemotherapies.
University of Cambridge School of Medicine

The University of Cambridge School of Clinical Medicine is a major centre for biomedical research and education of world leading quality. In the most recent University Funding Council Research Selectivity Exercise Cambridge shared the highest score for any Medical School in the country. Whilst the University of Cambridge has granted medical degrees since at least 1363, the university could not offer undergraduate clinical education until the Clinical School was formally established in 1975 with purpose built accommodation at Addenbrooke’s. In addition to these facilities comprising lecture theatres, seminar rooms and first class medical library, a postgraduate education centre was opened in the Clinical School building in 1980. The most recent HEFC teaching quality assessment of the undergraduate clinical education judged the learning facilities and the teaching in the clinical school to be of the highest quality.

Cambridge University Health Partners, the academic health sciences centre, in conjunction with the Institute of Continuing Education at The University of Cambridge are pleased to offer a one year Postgraduate Certificate in Clinical Medicine to all clinicians employed in Cambridge. Further details and registration: [http://www.ice.cam.ac.uk/mst-clinical-medicine](http://www.ice.cam.ac.uk/mst-clinical-medicine)

General Information

Cambridge is a city in the East of England, home to the University of Cambridge and one of the fastest growing technology hubs in the UK. The Arts Theatre within Cambridge is thriving and there are many musical activities to enjoy. The Fitzwilliam Museum is world famous.

For those with children of school age, there is a full range of public and private education institutions covering all age groups.

Cambridge is served by the national motorway network and regular train services to London King's Cross or London Liverpool Street have a journey time of less than one hour.

Within CUH, the main concourse offers shopping facilities; an advice centre; Bank; cafés; clothes boutique; financial advisory services; hairdressing salon; Marks and Spencer Simply Food; newsagent; The Body Shop; gift shop and on site solicitors . There is a Food Court which offers “fast-food”, as well as conventional options 24 hours a day.

In addition the Frank Lee Leisure and Fitness club provides comprehensive facilities for swimming, racquet sports, a multi-sports hall, a floodlit outdoor multi-sports facility, gym and bar facilities.

The Cambridge University Postgraduate Medical Centre has catering facilities as well as the library, lecture theatres and seminar rooms. Within the University of Cambridge, there is an unrivalled range of educational facilities, diverse cultural, sporting and other leisure activities.

<tr>
<td>Safety</td>
<td></td>
<td>Shares lessons learned to help others to improve safety.</td>
<td>Always follows agreed safety and wellbeing procedures. Learns from mistakes and asks for help if they need it.</td>
<td>Shows a lack of focus on safety and wellbeing in their day-to-day work.</td>
</tr>
<tr>
<td>Raising concerns</td>
<td></td>
<td>Encourages others to raise concerns about safety or attitude.</td>
<td>Speaks up every time standards on safety, care or dignity are not met. Welcomes feedback.</td>
<td>Keeps concerns to themselves, and rejects feedback about their own behaviour.</td>
</tr>
<tr>
<td>Communication</td>
<td></td>
<td>Seeks ways to enhance understanding of information being communicated to meet people’s needs.</td>
<td>Keeps people informed and gives clear explanations in ways people can understand.</td>
<td>Doesn’t give people the information they need. Uses jargon inappropriately.</td>
</tr>
<tr>
<td>Teamwork</td>
<td></td>
<td>Encourage others to contribute and demonstrates better ways of working within and across teams.</td>
<td>Works as part of a team. Co-operates and communicates with colleagues. Values other people’s views.</td>
<td>Excludes others and works in isolation.</td>
</tr>
<tr>
<td>Reassuringly professional</td>
<td></td>
<td>Is constantly aware that what they say and do affects how safe other people feel.</td>
<td>Is calm, patient and puts people at ease. Takes pride in their own appearance and our environment.</td>
<td>Passes on their negativity/stress. Is critical of other teams or colleagues in front of others. Displays unprofessional appearance.</td>
</tr>
<tr>
<td>Welcoming</td>
<td></td>
<td>Goes out of their way to make people feel welcome.</td>
<td>Is polite, friendly, makes eye contact, smiles where appropriate and introduces themselves. ‘Hello my name is…’</td>
<td>Ignores or avoids people. Is rude or abrupt, appears unapproachable/moody.</td>
</tr>
<tr>
<td>Respectful</td>
<td></td>
<td>Applies a broader understanding of the diverse needs of patients/colleagues. Supports others to be themselves.</td>
<td>Treats everyone as an equal and valued individual. Acts to protect people’s dignity.</td>
<td>Ignores people’s feelings or pain. Makes people feel bullied, belittled or judged.</td>
</tr>
<tr>
<td>Listen</td>
<td></td>
<td>Makes time to listen to people even when busy.</td>
<td>Listens to people in an attentive and responsive manner.</td>
<td>Disinterested, dismissive or talks over people.</td>
</tr>
<tr>
<td>Appreciate</td>
<td></td>
<td>Goes out of their way to make people feel valued for their efforts and achievements.</td>
<td>Encourages people’s efforts. Notices when people live up to our values, says thank you.</td>
<td>Doesn’t notice or appreciate people’s efforts.</td>
</tr>
<tr>
<td>Aiming high</td>
<td></td>
<td>Their positive attitude inspires others to achieve the highest levels of quality.</td>
<td>Always aims to achieve the best results.</td>
<td>Accepts mediocrity or means without looking for solutions.</td>
</tr>
<tr>
<td>Improving</td>
<td></td>
<td>Helps others to find creative solutions to problems and shares good practice.</td>
<td>Suggests ideas for better ways of doing things and looks for opportunities to learn.</td>
<td>Resists change: ‘we've always done it this way’.</td>
</tr>
<tr>
<td>Responsible</td>
<td></td>
<td>Shows enthusiasm and energy to achieve excellent results.</td>
<td>Takes responsibility and has a positive attitude.</td>
<td>Avoids responsibility. Blames or criticises others.</td>
</tr>
<tr>
<td>Timely</td>
<td></td>
<td>Always respects the value of other people’s time.</td>
<td>Is on time, efficient, organised and tidy. Apologises and explains if people are kept waiting.</td>
<td>Misses deadlines or keeps people waiting, without explanation/apology.</td>
</tr>
<tr>
<td>Makes connections</td>
<td></td>
<td>Helps others to understand how services connect.</td>
<td>Thinks beyond their own job and team to make things easier for people.</td>
<td>Focuses on their own department needs to the detriment of the people they serve.</td>
</tr>

# Leadership behaviours

**Safe**

<table>
<thead>
<tr>
<th>Safe</th>
<th>For example</th>
</tr>
</thead>
<tbody>
<tr>
<td>Involve, don’t micromanage</td>
<td>• Being clear with your team members, by setting clear performance goals and quality indicators.</td>
</tr>
<tr>
<td>Hold to account, don’t turn a blind eye</td>
<td>• Focusing on explaining the outcome and its relevance to CUH, Avoiding deciding how things have to be done.</td>
</tr>
<tr>
<td>Support others to speak up</td>
<td>• Involving and trusting individuals and demonstrating that their contributions and ideas are valued and important for delivering patient care.</td>
</tr>
<tr>
<td></td>
<td>• Ensuring everyone knows what is expected of them and helping them to resolve and learn from their mistakes.</td>
</tr>
<tr>
<td></td>
<td>• Constructively challenging others (including your peers) when their behaviour does not meet the standards that CUH expects.</td>
</tr>
<tr>
<td></td>
<td>• Taking time to ensure that your team members have all the knowledge, skills &amp; support required to do their job so that they understand what they are accountable for.</td>
</tr>
</tbody>
</table>

**Kind**

<table>
<thead>
<tr>
<th>Kind</th>
<th>For example</th>
</tr>
</thead>
<tbody>
<tr>
<td>Seek to understand, don’t jump to conclusions</td>
<td>• Using questioning techniques to make sure you have all the relevant information and facts before making decisions.</td>
</tr>
<tr>
<td>Encourage, don’t criticise</td>
<td>• Being fair and consistent in your management style.</td>
</tr>
<tr>
<td></td>
<td>• Understanding people come from varied backgrounds; challenging bias, prejudice &amp; intolerance.</td>
</tr>
<tr>
<td>Appreciate, don’t blame</td>
<td>• Seeking opportunities for your team members to broaden their skills, experience and knowledge – seeking opportunities where possible for them to be involved in internal and external initiatives.</td>
</tr>
<tr>
<td></td>
<td>• Looking for opportunities to thank and praise good performance. Making sure your team members know that you value the contribution that they make.</td>
</tr>
<tr>
<td></td>
<td>• Giving people permission to put their ideas in to practice.</td>
</tr>
<tr>
<td></td>
<td>• Making time to listen to people even when busy.</td>
</tr>
<tr>
<td></td>
<td>• Listening to people in an attentive and responsive manner.</td>
</tr>
<tr>
<td></td>
<td>• Ensuring that you do not appear disinterested or dismissive or talk over people.</td>
</tr>
</tbody>
</table>

**Excellent**

<table>
<thead>
<tr>
<th>Excellent</th>
<th>For example</th>
</tr>
</thead>
<tbody>
<tr>
<td>Inspire, don’t disengage</td>
<td>• Communicating a compelling and credible vision of the future in a way that makes it feel achievable and exciting.</td>
</tr>
<tr>
<td></td>
<td>• Seeking to be the best, learn from others and share ideas through participation, networking and collaboration.</td>
</tr>
<tr>
<td></td>
<td>• Identifying how to have a positive impact on other people. Creating a positive environment where people want to stay and develop their careers and do the best that they can for patients.</td>
</tr>
<tr>
<td>Be visible</td>
<td>• Building your ‘presence’, not just by being present but by actively listening and then following through on actions.</td>
</tr>
<tr>
<td></td>
<td>• Managing your time to ensure you are regularly available to your teams and individuals.</td>
</tr>
<tr>
<td></td>
<td>• Ensuring you are accessible to your team, avoiding giving them signs you are too busy to listen.</td>
</tr>
<tr>
<td>Develop others, don’t hold people back</td>
<td>• Ensuring CUH has the best, most capable people.</td>
</tr>
<tr>
<td></td>
<td>• Acting as a role model and being a steward for your staff’s careers.</td>
</tr>
<tr>
<td></td>
<td>• Helping individuals understand how they can improve and develop using a range of experiences.</td>
</tr>

SECTION 7 General Conditions of Appointment

7.1 General Conditions of Appointment

This appointee will be employed on the nationally agreed Terms and Conditions of Service for Consultants (England) 2003.

(a) The successful candidate will be required to live within 15 miles of Addenbrooke’s Hospital, or 30 minutes travelling time when on call;

(b) The appointee will be expected to cover for colleagues’ absence from duty on the basis of mutually agreed arrangements with the Department and with the Employing Trust. This is arranged by mutual agreement of consultant colleagues and approval of the Divisional Director, in accordance with standard Trust and NHS regulations. It is essential that six weeks notice is given to allow for proper planning and prevent cancellations of patients’ appointments/surgery. This includes all forms of leave;

(c) The Trust requires the successful candidate to have and maintain full registration and a Licence to Practise with the General Medical Council; to be on the GMC Specialist Register at commencement and to fulfil the duties and responsibilities of a doctor as set down by the General Medical Council;

(d) All appointments are subject to satisfactory Occupational Health Clearance being obtained;

(e) The appointment is exempt from the provisions of Section 4(2) of the Rehabilitation of Offenders Act 1974 by virtue of the Rehabilitation Act 1974 (Exemptions) Order 1975. Applicants are not entitled therefore to withhold information about convictions which for other purposes are “spent” under the provision of the Act, and in the event of employing any failure to disclose such convictions could result in dismissal or disciplinary action by the Trust. Any information given will be completely confidential and will be considered in relation to an application for positions to which the Order applies;

(f) With the Terms of DHSS Circular (HC)(88) – Protection of Children – applicants are required when applying for this post to disclose any record of convictions, bind-over orders or cautions. The Trust is committed to carefully screening all applicants who will work with children and you will be expected to undertake a ‘disclosure’ check.
SECTION 8 Application Information

Applicants who are unable, for personal reasons, to work full time will be eligible to be considered for the post. Job share applicants are also welcomed. If appointed, modification of the job content will be discussed on a personal basis in consultation with consultant colleagues.

Closing date for receipt of applications: 04 October 2023

Visits

Visiting the Department should be arranged through the secretary by emailing:

clinic8.secretaries@nhs.net

Please note:

Expenses of short-listed candidates will be reimbursed at rates equivalent to those listed in the Terms and Conditions of Service for Hospital Medical and Dental Staff.
