Accessing your BMJ International Medical Student Resource

Start revising using our bespoke platform. Developed by clinical tutors and online learning innovators, we give you the tools you need for the best chance of passing your exam. We have helped over 300,000 candidates worldwide with their revision, and believe that our time-efficient platform is the most effective way of fitting quality revision into your busy schedule.

🌟 Time to Succeed
We focus on helping you maximise your revision time. Our unique features allow you to ensure that no time is wasted when you’re preparing for your exam.

🔍 Time to Review
Tracking progress and logging your learning is vital to an effective revision strategy. We help you identify your weak areas and give you the guidance you need to deepen your knowledge.

✍️ Time to Focus
Our experienced team of clinicians, past examiners and subject matter experts carefully select questions and topics they believe are most likely to come up in your exam.

☕️ Time to Relax
With our help you can fit high-quality revision into your busy schedule. Exam preparation can be extremely stressful, especially if you feel you could make better use of the revision time available to you.

I want to say thank you for the site and I have found it a really valuable way to study as I tend to learn better through practice than reading. I will continue to use OnExamination to prepare for my finals next year.

Step 6
6. Click ‘Continue’.
Step 7
Click ‘Buy Now’ to see confirmation of your order.

Step 8
Then click ‘Login and start revising now’ to access your revision resource.

Revise anywhere with the App

Revise on your commute, in between patients or whenever suits you best with our app. Practice questions offline, your scores are synced back to your account when you’re next online.

To help you keep on track we created our Daily Questions feature; simply set a time that suits you and we will send you a personalised revision question every day.

Our app also allows users to download mock tests and access them in-app to prepare you for number of questions, time-pressures and spread of topics. You can also countdown to your Exam Date and view your Daily Key Stats on your personal Dashboard.

Great selection of questions. The clear demonstration of session progress is very useful. I like the ability to build up revision sessions with multiple topics, number of questions and type of question.

— Manchester Student
Key Features

Core Questions
Maximise your revision time. Core Questions instantly delivers you the most important questions, ranked by our clinical tutors and your peers. Our team includes past examiners, field specialists and clinical authors with unrivalled experience in exam formats and the current expectations of what you will be tested on and why.

Daily Questions
Keep yourself on track. Set a time that suits you, we will send you a personalised revision question every day. Receive a question related to what you revised most recently keeping your revision efforts focussed and continuous.

Key Learning Points
Every question tests a key learning point. Each revision session you complete ends with a memorable summary of key points you’ve covered. Review the questions again to reinforce your knowledge. Understanding key points first is the most effective way to gain a complete knowledge of any topic area.

Mock Tests
Prepare yourself with relevant mock tests. Simulate exam day with the correct format, time pressures, number of questions and topic spread. We will then generate an accurate and detailed breakdown of your results, letting you know what you need to focus on.

Track your progress
We provide intelligent and responsive feedback for you to keep track of how your revision is going. Detailed performance graphs show how you’re currently performing and benchmark you against your peers.
