

Fast access to clinical decision support anytime, anywhere

Nationally funded, free to all NHS healthcare staff and learners in England

With extensive coverage of the most commonly-occurring conditions, BMJ Best Practice can be relied on to answer your clinical questions.

Supports you with the very latest evidence and expert opinion, updated daily, and linked to international guidelines.

Provides detailed drug information on dosing, availability, formulations, side effects and contraindications with our integrated formularies

Helps you discuss treatment options with patients. BMJ Best Practice has nearly 500 patient leaflets accredited by the Information Standard and reviewed by our Patient Panel.

Supports professional development. BMJ Best Practice includes automatic CME/CPD tracking to support revalidation and appraisals.

Provides access whether you are in the surgery, on the ward, at home, or on call, with online, mobile and offline access via the BMJ Best Practice app

You are called to see a 27-year-old woman with asthma on the medical ward. It is 3 am and her symptoms have got worse over the past hour.

She was admitted 3 days ago with an exacerbation of her asthma. She is now sitting up in bed and is short of breath and wheezing. She has just received a nebuliser but it didn't help a great deal. She is anxious and is not able to speak in full sentences

What is it most likely to be going on?

What would you do?

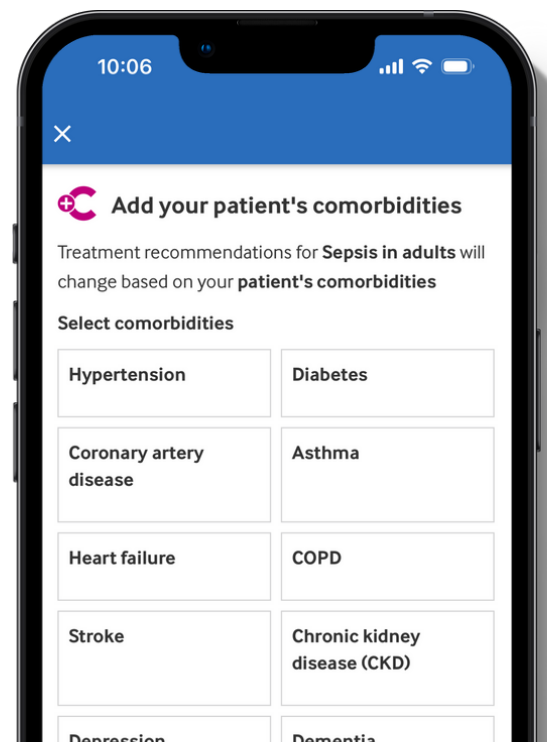

What is the priority for the management?

How to access

1. Visit bestpractice.bmj.com/nhsinengland
2. Enter your OpenAthens username and password and click 'Sign in'*
3. If you are a new user, you will need to now register for a BMJ Best Practice user profile. Use your user profile to download the app for access anywhere, anytime, even offline.

Download the app

1. Visit your Apple or Google play store and search for 'BMJ Best Practice' to download.
2. Use your BMJ Best Practice 'personal account' details to sign in and download the content.

"The app is perhaps the most useful tool I have used whilst studying in hospital. Having access to the BMJ Best Practice content on my mobile has helped me consolidate most of my knowledge gains whilst on the wards."

Final Year Medical Student, The University of Manchester
