BMJ in the News is a weekly digest of journal stories, plus any other news about the company that has appeared in the national and a selection of English-speaking international media.

A total of 24 journals were picked up in the media last week (22-28 April) - our highlights include:

- Winners from The BMJ Awards were covered by Practice Business, Medical Health News and BioPortfolio.

- A paper from BMJ Global Health highlighting the global burden of emergency diseases was covered widely by specialist outlets, including ScienceDaily, Scienmag and WebMD.

- A report in BMJ Case Reports about how a man nearly lost his eye after being hit by a cow was picked up by the Daily Mail and Metro.
