BMJ in the News is a weekly digest of journal stories, plus any other news about the company that has appeared in the national and a selection of English-speaking international media.

A total of 23 journals were picked up in the media last week (5-11 October) - our highlights include:

- A BMJ Global Health paper finding that US viewer preference for right-wing TV media is linked to fewer preventive measures against COVID-19 made headlines in Business Insider India, CNN Business and Latest Nigerian News.

- Research in The BMJ suggesting that pregnancy complications are linked to a heightened risk of heart disease and stroke in later life was picked up by the Daily Mail, Business Insider and the Times of India.
