Leading health science journals from BMJ

The BMJ
One of the most influential and respected general medicine journals in the world. The BMJ features original research, reviews, expert analysis, authoritative opinion and medical education content.

Most-read: State of the Art clinical reviews provide the latest, specialty-specific medical knowledge in 5,000 word articles. Predominantly written by U.S. authors.

Visit bmj.com/education/clinical-review for the latest clinical reviews.

FEATURED JOURNALS

Gut
A leading international journal of gastroenterology and hepatology. Gut publishes first class clinical research of the alimentary tract, liver, biliary tree, pancreas and all areas in gastroenterology. Regular features include authoritative articles by leading experts, reports on the latest treatments for diseases, reviews and commentaries. It is an official journal of the British Society of Gastroenterology.
✓ Includes a subscription to Frontline Gastroenterology, which focuses on best practice in the fields of gastroenterology and hepatology. Published bi-monthly.

Ranked #3 in the field of gastroenterology & hepatology*

British Journal of Sports Medicine
BJSM is an authoritative source for the latest research and debate in sport and exercise medicine. Content includes clinical education and implementation success stories, critical reviews and original research. An editorial dedication to multimedia ensures podcasts, videos and blogs are frequently posted to enhance article content. This highly-regarded journal is also affiliated with 25 sports medicine and sports physiotherapy societies.
✓ Includes quarterly issues of BJSM Injury Prevention and Health Protection, which is sponsored and edited by the International Olympic Committee.

Ranked #1 in the field of sports sciences*

BMJ Quality & Safety
This hot-topic journal is dedicated to the innovation and creative thinking that advances the quality of healthcare and the science of improvement. BMJ Quality & Safety provides a rich mix of news, opinion, debate and research for academics, clinicians, healthcare managers and policy makers.
A patient-focused editorial team ensures content provides clinical evidence and knowledge that will improve patient care.

Ranked #2 in health policy and services*

Regional Anesthesia & Pain Medicine
This authoritative journal provides regional anesthesia and pain specialists new research, guidelines and important information to treat their patients—from pediatric to geriatric. Content covers peer-reviewed scientific and clinical studies that advance the understanding and clinical application of regional techniques for surgical anesthesia and postoperative analgesia.
Featured content includes the latest anticoagulation guidelines and new research that avoids the overuse of opioids. RAPM is the official journal of the American Society for Regional Anesthesia and Pain Medicine.

* 2020 Journal Citation Reports®, Clarivate Analytics, 2021
BMJ Case Reports
Support case-based learning and publishing at your institution!

*BMJ Case Reports* is a unique, online-only journal that provides access to 20,000+ case reports – the largest, peer-reviewed case reports database in the world. An institutional subscription also provides unlimited submission opportunities to faculty, students and staff (42% acceptance rate).

Other features include:
- Author tools, such as peer review, report templates and copyediting
- Downloadable images and permission to reuse content
- Interactive tools, multimedia and more!

Annals of the Rheumatic Diseases

*ARD* is committed to promoting the highest standards of scientific exchange and education. Its international, peer-reviewed content covers all aspects of rheumatology, which includes the spectrum of musculoskeletal conditions, arthritic disease, and connective tissue disorders.

Content includes basic, clinical, and translational scientific research, including the most important recommendations for the management of various conditions.

Ranked #2 for original research in rheumatology
2020 Journal Citation Reports®, Clarivate Analytics, 2021

Archives of Disease in Childhood

From conception to adolescence, *ADC* keeps pediatric healthcare providers up-to-date on the latest advances in the diagnosis and treatment of childhood ailments, as well as advocacy issues such as child protection.

A subscription also includes the following bi-monthly publications:
- **Education & Practice** — assists pediatricians at all levels in their ongoing professional development. (Impact factor: 1.309)
- **Fetal & Neonatal** — the world-leading journal on this topic. Publishes quality original research and presents quality original research and reviews in the fields that cover fetal and neonatal physiology and clinical practice, genetics, perinatal epidemiology and neurodevelopmental outcomes. (Impact factor: 5.747)

BMJ Supportive & Palliative Care

*BMJ Supportive & Palliative Care* aims to connect many disciplines and specialties throughout the world by providing high quality, clinically relevant research, reviews, comment, information and news of international importance.

The editorial team holds an inclusive view of supportive and palliative care research and are able to call on experts to critique the whole range of methodologies within the subject, including those working in transitional research, clinical trials, epidemiology, behavioural sciences, ethics and health service research.

British Journal of Ophthalmology

Referenced both by ophthalmologists and visual science specialists, *BJO* publishes peer-reviewed articles on clinical and laboratory sciences, investigations, the latest major reviews, editorials, educational articles and letters. It also publishes major reviews and manuscripts covering regional issues in a global context.

A leading journal for 100+ years!
Heart

Heart keeps cardiologists up-to-date on important research advances in cardiovascular disease. New scientific developments are highlighted in editorials and put in context with concise review articles. Education in Heart articles provide a comprehensive, continuously updated curriculum with interactive, online self-assessment questions. Heart is the official journal of the British Cardiovascular Society.

Impact factor: 5.994
Print ISSN: 1355 6037
Online ISSN: 1468 201X
Frequency: Bi-weekly
First published: 1914
heart.bmj.com

Injury Prevention

Injury Prevention offers the best in science, policy, and public health practice to reduce the burden of injury in all age groups around the world. The journal publishes original research, opinion, debate and special features on the prevention of unintentional, occupational and intentional (violence-related) injuries. It is the official journal of the Society for Advancement of Violence and Injury Research.

Impact factor: 2.399
Online ISSN: 1475 5785
Frequency: Bi-monthly
First published: 1995
ip.bmj.com

International Journal of Gynecological Cancer

This premier educational journal publishes content on the detection, prevention, diagnosis, and treatment of gynecologic malignancies. IJGC emphasizes a multidisciplinary approach and includes original research, reviews, clinical trials protocols and opinion pieces.

Multimedia enhancements! Weekly podcasts and videos enhance article content. Encourage your readers to connect with experts through a monthly Zoom Journal Club hosted by the Editor and authors of lead articles. Follow the club on Twitter at #IJGCclub.

IJGC is the official scientific journal of the International Gynecologic Cancer Society and the European Society of Gynaecological Oncology.

Impact factor: 3.437
ISSN: 1048 891X
Frequency: 9 issues per year
First published: 1991
ijgc.bmj.com

Journal of Epidemiology & Community Health

This journal improves epidemiological knowledge and health worldwide through the dissemination of original research. Content covers applied, methodological and theoretical issues with emphasis on studies that use a multidisciplinary or integrative approach.

Impact factor: 3.71
Print ISSN: 0143 005X
Online ISSN: 1470 2738
Frequency: Monthly

**Journal of NeuroInterventional Surgery**
This popular subspecialty journal was launched in 2009, following growing professional interest in neurointerventional techniques for the treatment of a range of neurological and vascular problems, such as stroke, aneurysms, brain tumors, and spinal disorders. JNIS is published by BMJ on behalf of the Society of NeuroInterventional Surgery.

**Journal of Neurology, Neurosurgery & Psychiatry**
A true trailblazer, JNPP publishes ground-breaking research on disorders ranging from stroke, multiple sclerosis, Parkinson’s disease, epilepsy, peripheral neuropathy, to ALS. Regular podcasts and early online publishing ensures physicians, researchers and other multidisciplinary professionals are kept up-to-date in this complex field.

A subscription includes the following publications:
- Practical Neurology, an essential journal for health care professionals who see patients suffering from neurological issues. Educational materials included; published bi-monthly.
- Journal of NeuroInterventional Surgery (see description above)

**Occupational and Environmental Medicine**
OEM publishes research relating to the full range of chemical, physical, ergonomic, biological and psychosocial hazards in the workplace, and environmental contaminants and their health effects.

The journal also publishes systematic reviews, editorials and commentaries. OEM is the official journal of the Faculty of Occupational Medicine of the Royal College of Physicians of London.

**Thorax**
Thorax is a world-leading respiratory medicine journal that publishes clinical and experimental research across all areas of pulmonology, including pediatrics, immunology, pharmacology and pathology. Hot-topic issues are covered, including COPD, asthma, smoking, respiratory infection, lung cancer and more.

Thorax is an official journal of the British Thoracic Society.

**Tobacco Control**
Tobacco Control covers the nature and consequences of tobacco use worldwide. This includes tobacco’s effects on population health, the economy, the environment, and society; efforts to prevent and control the global tobacco epidemic through population-level education and policy changes; the ethical dimensions of tobacco control policies; and the activities of the tobacco industry and its allies.

Essential reading for anyone with an interest in tobacco control, including public health professionals, researchers, policy makers and educators. The journal has an active social media presence and publishes a regular blog.
BMJ Sexual & Reproductive Health

BMJ Sexual & Reproductive Health is a multi-professional journal that promotes sexual and reproductive health and wellbeing, and best contraceptive practice, worldwide. It publishes research, debate and comment to inform policy and practice, and recognizes the importance of professional-patient partnership.

Emergency Medicine Journal

A leading international journal of developments and advances in emergency medicine. Content includes original research, evidence-based reviews and commentaries on topics ranging from resuscitation and trauma to disaster preparedness response, toxicology and pediatric emergencies. The journal is written for doctors, nurses, paramedics and ambulance staff.

Evidence-Based Mental Health

EBMH publishes articles relevant to the study and practice of evidence-based clinical psychology and psychiatry, including original research, clinical reviews and statistics papers.

The journal is co-owned by the Royal College of Psychiatrists, The British Psychological Society and BMJ.

Journal of Clinical Pathology

JCP offers a mix of cutting-edge academic research and practical clinical advice for busy pathologists. In addition to original research, JCP publishes the latest developments in all disciplines of pathology, and a range of article types for both trainees and practicing pathologists. CME available.

JCP is the official journal of the Association of Clinical Pathologists.

Journal of Investigative Medicine

As the official journal of the American Federation for Medical Research, JIM publishes the latest developments in medical research and changes affecting the biomedical research community.

JIM covers all topics and specialty areas that are critical to the conduct of biomedical research: From the translation of clinical observations at the bedside, to basic and animal research, to clinical research and the implementation of innovative medical care.

European Journal of Hospital Pharmacy

Publishes practical and innovative research that aims to strengthen the profile and professional status of hospital pharmacists. EJHP is committed to being the leading journal on all aspects of hospital pharmacy, thereby advancing the science, practice and profession.
BMJ Evidence-Based Medicine

*BMJ EBM* publishes original evidence-based research, insights and opinions on what matters for healthcare. Content focuses on the tools, methods, and concepts that are basic and central to practicing evidence-based medicine. The journal provides relevant, trustworthy and impactful evidence by disseminating new research; providing debate, analysis and opinion on trusted evidence that matters for better healthcare; and publishing original research that affects practice.

BMJ Leader

As the official journal of the Faculty of Medical Leadership and Management, *BMJ Leader* publishes authoritative, peer-reviewed articles in the field of healthcare leadership. With a focus on original research and reviews, the journal is a place of discussion and debate for the many disciplines that make up leadership in the health services.

Drug and Therapeutics Bulletin

*DTB* provides practical, independent, evidence-based information for practicing healthcare professionals. Succinct summaries of the best available evidence enable readers to make informed and unbiased choices regarding medicines and other treatments to help patients get the best care.

*DTB* is wholly independent of the pharmaceutical industry, government and regulatory authorities. It is also free of advertising and other forms of commercial sponsorship.

Evidence-Based Nursing

The editorial team behind *EBN* scans international medical research studies and reviews that report on important advances and nursing best practices. The clinical relevance and rigor of this literature is then assessed to identify research that is high-quality and relevant to nursing. *EBN* then saves nurses time by publishing expert commentary on the chosen articles that identify the key findings and implications for clinical practice.

Encourage your readers to connect with healthcare experts in our Twitter chats! #ebnjc

Journal of Medical Ethics

This leading journal reflects the international medical community and is the official journal of the Institute of Medical Ethics. Content promotes ethical reflections and conduct in scientific research and medical practice. Features include articles on the ethical aspects of health care, reports, responses, editorials and more.

✓ A subscription includes Medical Humanities (see description on the next page).
Medical Humanities
A leading international journal from the Institute of Medical Ethics. Medical Humanities presents the international conversation around medicine and its engagement with the humanities and arts, social sciences, health policy, medical education, patient experience and the public at large. It features original articles relevant to the delivery of healthcare, the formulation of public health policy, and experiencing and treating illness.

Postgraduate Medical Journal
PMJ aims to support medical residents and their program directors. It also contributes to the continuing professional development of all physicians by publishing papers on a wide range of topics relevant to the practicing physician. Papers published in PMJ focus on core competencies; describe current practice and new developments in all branches of medicine; describe relevance and impact of translational research on clinical practice; provide background relevant to examinations and medical education.

PMJ is an official journal of the Fellowship of Postgraduate Medicine.

Sexually Transmitted Infections
STI aims to keep practitioners, trainees and researchers up to date in the prevention, diagnosis and treatment of all STIs and HIV. The journal publishes original research, educational articles, evidence-based reviews and commentary on the clinical, public health, translational, sociological and laboratory aspects of sexual health from around the world. STI is an official journal of the British Association of Sexual Health and HIV.

BMJ Innovations
BMJ Innovations is an international peer-reviewed journal focused on digital health technologies, medical devices, process, and system innovations that have the best potential to improve patient outcomes. Content includes original research, analysis, commentary and case studies. The journal also acts as a community to help develop better innovators and catalyze new innovations.

BMJ Premier Collection

INCLUDES 37 EVIDENCE-BASED JOURNALS!

BMJ'S MOST COMPREHENSIVE JOURNAL PACKAGE

Enhance your health science library with new medical research, reviews and evidence-based medicine from around the world. BMJ’s Premier Collection is the easiest and most cost-effective way to subscribe to BMJ’s specialty and high-impact journals. An institutional subscription provides instant access to 37 leading titles ranging from specialty-specific to general medicine and public health.

Features include:

- New evidence-based research, published online first
- Unlimited archive access—searchable by topic
- Multimedia content, including podcasts, videos and blogs
- Editorials, reader responses and debates
- Email alerts when new content is available
- Device-responsive websites
