

BMJ in the News is a weekly digest of national and international news coverage in English for BMJ, The BMJ, and BMJ Journals.

The content is provided daily by Cision and Google Alerts. The views expressed are those of the individual journalists/outlets: they are intended to represent the breadth of media coverage, not endorsement by BMJ or the media relations team.

Coverage for 24 - 30 April 2023

INFLUENCE

Martyn Day Shadow SNP Spokesperson (Health and Social Care) mentioned The BMJ in the House of Commons [Health Questions](#) 25 April 2023: “**The British Medical Journal** has warned that the comprehensive and progressive agreement for trans-Pacific partnership trade deal will make it harder for the UK to regulate tobacco and alcohol or banned products such as those containing harmful pesticides. Given that no health impact assessment has been carried out, **The BMJ** recommends that one should be performed now. Will the Secretary of State commit to assessing the deal’s threat to public health?.”
