

BMJ in the News is a weekly digest of national and international news coverage in English for BMJ, The BMJ, and BMJ Journals.

The content is provided daily by Cision and Google Alerts. The views expressed are those of the individual journalists/outlets: they are intended to represent the breadth of media coverage, not endorsement by BMJ or the media relations team.

Coverage for 3-9 July 2023

INFLUENCE

Carol Monaghan, Shadow SNP Spokesperson (Science, Innovation and Technology) mentioned **The BMJ** in a Westminster Hall debate [Human-specific Medical Research Techniques](#) 4 July 2023: Opposition to the use of animals in medical research is not limited to concerns about cruelty and animal rights; there are significant questions regarding its effectiveness ... Dr Fiona Godlee, editor-in-chief of The BMJ, reports that it is “nearly impossible to rely on most animal data to predict whether or not an intervention will have a favourable clinical benefit-risk ratio in human subjects.”
