

## Have you downloaded the top-rated, award-winning app?

Nationally funded, free to all NHS healthcare staff and learners in England.

### Steps to download:

1. Visit the BMJ Best Practice website and log in through your institution's network (IP) or via OpenAthens.
2. Click 'create account' for a personal account or 'log in' if you already have one.
3. Download the BMJ Best Practice app from the App Store or Google Play and log in with your new account details.

**In training, on the ward  
or at home, the app  
gives you instant  
access to:**

- ✓ 1000+ clinical summaries covering epidemiology, aetiology, risk factors, differential diagnosis and much more
- ✓ Animated videos of common medical and surgical procedures
- ✓ 250+ medical calculators
- ✓ 500+ patient leaflets
- ✓ Includes automatic CME/CPD tracking to support revalidation
- ✓ Offline access, perfect for on the wards or remote areas
- ✓ Treat the whole patient with the Comorbidities Manager
