

SUPPLEMENT TO THE BRITISH MEDICAL JOURNAL

LONDON: SATURDAY, MAY 13th, 1933

THE REGISTER OF BIO-PHYSICAL ASSISTANTS OF THE SOCIETY OF APOTHECARIES OF LONDON

The Representative Body of the British Medical Association, at its Annual Meeting in 1928, pointed out the need for the registration of competent and suitable lay persons to whom medical practitioners could with confidence send their patients for electrical treatment and actinotherapy. A small committee of experts was formed to draft general lines of procedure, and an arrangement was entered into with the Society of Apothecaries of London to institute a register of approved persons under the conditions prescribed. Regulations were drawn up and the first *Register of Bio-Physical Assistants* was printed and published in book form under the direction of the Society of Apothecaries. With the object of making the Register widely known and easily accessible to members of the medical profession at home and abroad, it was decided to publish, as a special *Supplement* to the *British Medical Journal*, the complete list of names on the roll of bio-physical assistants, revised to March 31st in each year. The entries in Part I are arranged in alphabetical order, with postal addresses; in Part II the names are regrouped geographically. Subject to the reservation in respect of blind masseurs and blind masseuses, those whose names appear in the general and local lists printed below have been approved by the Society of Apothecaries of London as persons "competent to dispense the direct current, ionization, faradic currents, sinusoidal currents, diathermy, high-frequency currents, light and heat, and ultra-violet light."

Explanation of Prefixes used in the Register—

- * Chartered Masseur (or Masseuse).
- † This member is a Blind Masseur (or Masseuse) and is qualified to undertake treatment in the following subjects only: Faradism, Galvanism, Sinusoidal Current, Radiant Heat, High Frequency (excluding Auto-condensation).
- ‡ This member is a Blind Masseur (or Masseuse) and is qualified to undertake treatment in the following subjects only: Faradism, Galvanism, Sinusoidal Current, Radiant Heat, High Frequency (excluding Auto-condensation), and Diathermy.
