
Notice to Authors
When original articles and letters for publication are not submitted exclusively to the British Medical Journal this must be stated. Correspondence on editorial business should be addressed to the Editor, British Medical Journal, B.M.A. House, Tavistock Square, London W.C.1. Telephone: 01-387 4499. Telegrams: Astatoly, London W.C.1.

Authors wanting reprints of their articles should notify the Publishing Manager, B.M.A. House, Tavistock Square, W.C.1, on receipt of proofs.

Subscriptions
Members' subscriptions should be sent to the Secretary of the British Medical Association, B.M.A. House, London, or to the Scottish Secretary, B.M.A. Scottish Office, Drumshaws Gardens, Edinburgh.

Doctors who are not members of the B.M.A. can subscribe to the B.M.J. The rates for doctors resident in the United Kingdom and abroad are given on the first page of the classified advertisements. These rates include the subscription for the North American "Air Express", which is available to both members and non-members of the B.M.A.

Classified Advertisements
Doctors Abroad.—Copies of the appointment vacancies advertised in the B.M.C. can be sent by post free of charge. Members' rate: the minimum cost is 40s. for six weeks' supply, for which copies of vacancies in up to five sections of the classified advertisements will be sent. Non-members' rate 60s. minimum for six weeks' supply of five headings or less. Additional headings (for members and non-members) 10s. each for six weeks' supply. Orders for specific grades in any section cannot be accepted. Payment must be prepaid and evidence of payment will be required.

Details of rates, etc., for classified advertisements appear on the first page of the classified section.

Correction
Thyroid Replacement Therapy
In the article "Combined Thyroxine and Triiodothyronine for Thyroid Replacement Therapy" by Selwyn Taylor, M. Kapur, and Ross Adie (2 May, p. 270) part of the Acknowledgements section was omitted in error; this should have read as follows:
Professor I. D. P. Woolton and Miss Leblanc were responsible for the P.B.I. estimations.

Liquor Examination
In the article "Role of Liquor Examination" by W. W. (25 April, p. 220) the liquor bilirubin ratio referred to in the Table should have been 0.109 and not 0.109 as stated.

Childhood Bronchitis
In the article "Urban and Social Origins of Childhood Bronchitis in England and Wales," (22 April, p. 213), we greatly regret that there were a number of errors. The corrected sentences should have read as follows:
Page 213, para. 1, line 1: "A survey of respi- rateary disease in infants and children showed a pronounced social class gradient..."
Page 213, para. 2, line 11: "Parental social class was important in the past..." (Grundy and Lewis-Faning, 1957; Douglas and Blomfield, 1958).
