Effect of financial incentives on incentivised and non-incentivised clinical activities: longitudinal analysis of data from the UK Quality and Outcomes Framework

The “Contributors” section in this Research paper (*BMJ* 2011;342:d3590, doi:10.1136/bmj.d3590) contains an error. The penultimate sentence in this paragraph reads: “JMV, SC, CR, and DR participated in the planning of the study, analysis and interpretation of data, and editing the final manuscript.” In fact, there is no author “CR”—this is a typographical error combining the initials of Chris Salisbury and Martin Roland.

This sentence should have stated that “JMV, SC, MR, CS, and DR participated in the planning of the study, analysis and interpretation of data, and editing the final manuscript.”
