## Safety and efficacy of digoxin: systematic review and meta-analysis of observational and controlled trial data

In this Research paper by Ziff and colleagues (*BMJ* 2015;351:h4451, doi:10.1136/bmj.h4451) an error was introduced into figure 1 (Selection of studies flowchart (after duplicates removed) on safety and efficacy of digoxin). In the box that lists the number of “full text articles assessed for

eligibility,” this should have read n=82 [not “n=1916” as was published].
