Accuracy of Patient Health Questionnaire-9 (PHQ-9) for screening to detect major depression: individual participant data meta-analysis

OPEN ACCESS

In this paper by Levis and colleagues (BMJ 2019;361:l1476, doi:10.1136/bmj.l1476, published 9 April 2019), the names of the members of the DEPRESSION Screening Data (DEPRESSD)

Collaboration were omitted. This was due to a processing error and has now been corrected.
