TREATMENT CARD

Carry this card with you at all times. Show it to the pharmacist and tell him or her that you are taking this medicine. The pharmacist may ask you to see your doctor for further advice.

INSTRUCTIONS TO PATIENTS

Please read carefully

While taking this medicine and for 10 days after your treatment finishes you must observe the following simple instructions:

1. Do not eat CHEESE.
2. Do not eat or drink BOVIL, OXO, MARMITE OR ANY SIMILAR MEAT OR YEAST EXTRACT.
3. Do not take any other MEDICINES (including tablets, capsules, nose drops, inhalations or suppositories) whether purchased by you or previously prescribed by your doctor, without first consulting them.

NB Coughs and colds, sore throats, etc., may be aggravated by this medicine.

Report any severe symptoms to your doctor and follow any other advice given by him.

M.A.O.I. The Pharmaceutical Society of Great Britain

CORRECTION

Screened Fibrinogen for Prophylaxis of Venous Thrombosis

In a letter by Dr. N. C. Allan and colleagues (8 May, p. 340) the word "no" was inadvertently in- cluded in the last line of the first paragraph. The sentence should have read: "Venography . . . is therefore only warranted when there is other evidence of thrombosis."
