Associations between active commuting, body fat, and body mass index: population based, cross sectional study in the United Kingdom

In this Research article by Ellen Flint and colleagues (*BMJ* 2014;349:g4887, doi:10.1136/bmj.g4887), the caption of table 3 is wrong. It should be: “Results of sex stratified series of linear regression models investigating the association between

commuting mode and **percentage body fat** [not body mass index].”
