Lessons from the fatal French study BIA-10-2474

In this editorial (*BMJ* 2016;353:i2727, doi:10.1136/bmj.i2727) the second paragraph of the section titled “The drug” contains an error. The dose increase specified in parenthesis for the

multiple ascending doses substudy should read “from 20 mg/day in the fourth series to 50 mg/day in the fifth series,” not “from 20 mg on day 4 to 50 mg on day 5.”
