COVID-19: WEATHERING THE STORM

Keeping up with studies on covid-19: systematic search strategies and resources

Farhad Shokraneh *information scientist*

Cochrane Schizophrenia Group, Institute of Mental Health, University of Nottingham, Nottingham NG7 2TU, UK

The reason I write this letter is to take a small step towards helping readers with evidence based decision making by keeping them up to date with the rapidly growing number of covid-19 studies in PubMed and other resources.¹ Many studies are not going to be visible in PubMed or Embase in the next few months because of indexing and content policy in bibliographic databases that avoids indexing preprint and unpublished studies, including registered clinical trials.

PubMed for recent published literature on covid-19

Live strategy and results in current PubMed: tinyurl.com/waj7hmj

Live strategy and results in future PubMed: tinyurl.com/uwbsvo2

medRxiv and bioRxiv for unpublished studies on covid-19
connect.medrxiv.org/relate/content/181

ClinicalTrials.Gov for clinical trials on covid-19

Live strategy and results: tinyurl.com/t9vwzfo

Google Scholar for published and unpublished literature on covid-19

Live strategy and results: tinyurl.com/spj6oox

Evidence for Policy and Practice Information and Co-ordinating Centre: covid-19: living map of the evidence
