The BMJ interview: Anthony Fauci on covid-19

In this feature (*BMJ* 2020;370:m3703, 23 September 2020, doi:) we incorrectly added the text “[if a trial were to fail that]” in the response to the question, “There’s a worry about political pressure to approve a covid-19 vaccine too quickly . . .”

We have corrected this to “[if a trial were to succeed]” in the online version.
