Financial incentives for smoking cessation in pregnancy: multicentre randomised controlled trial

In this paper by Berlin and colleagues (*BMJ* 2021;375:e65217, doi:, published 1 December 2021), the first sentence of the participants section in the abstract should have read “460 pregnant smokers aged at least 18 years who smoked ≥ 5 cigarettes/day or ≥ 3 roll-your-own cigarettes/day and had a pregnancy gestation of < 18 weeks were randomised to a financial incentives group (n=231) or a control group (n=229).”

The article and PDF will be updated in due course.
