Covid-19: The significance of India's emerging "hybrid immunity"

In this Feature (*BMJ* 2021;375:n3047, doi:, 20 December 2021) we have corrected Swapneil Parikh's job title, adjusted an estimate in the final paragraph (10-15% of 940 million people, not 11-15%), and clarified Parikh's closing quotation.
