Covid-19 vaccines and treatments: we must have raw data, now

This editorial by Peter Doshi and colleagues (*BMJ* 2022;376:o102, doi:) originally stated that the Medicines and Healthcare Products Regulatory Agency (MHRA) has “stopped posting information released in response to freedom of information requests on its website.” The online version has been corrected to say that MHRA’s posting is delayed, not stopped completely. MHRA posted no additional freedom of information requests on its website between 14 August and 28 December 2021. Since 29 December, however, it has posted a selection of materials for responses from July to September.
