100 years old

On 11 December Dr Aaron H Levy celebrated his hundredth birthday. Born in Canada, he graduated in medicine at McGill University in 1899 and the following year took the PhD of Rostock University, Lithuania. In 1902 he qualified again with the Conjoint diploma at Barts and in 1909 became FRCS. He had a distinguished career in ophthalmology, being surgeon to the Central London Ophthalmic Hospital in 1911 and later the first of a line of consultant ophthalmic surgeons who served the London Jewish Hospital and the Jewish Blind Society. He is the oldest surviving member of the Jewish Board of Deputies and was president of the Jewish Health Organisation. Dr Levy served in both world wars, in the first as a captain RAMC and in the second in the Emergency Medical Service. We offer him our congratulations and best wishes on his centenary.

Raymond Horton-Smith Prize

The Raymond Horton-Smith prize 1974-5 was awarded to Dr John Yudkin, not Professor John Yudkin (6 December, p 586).
