On the Mode of Communication of Cholera. By John Snow, M.D. London: John Churchill.

PROVINCIAL MEDICAL AND SURGICAL ASSOCIATION.

THE APPOINTMENT OF EDITORS.

To the Worcester Council of the Provincial Medical and Surgical Association.

Gentlemen,—I beg to inform you that the Committee of the Presidents and Vice-Presidents of this Association, appointed at the Anniversary Meeting, at Worcester, to fill up the vacancy occasioned in the office of editor, by the death of Dr. Streeten, have unanimously appointed Dr. Ranking, of Norwich, and Mr. Walsh, of Worcester, conjoint editors of the Journal of the Association.

CHARLES HASTINGS,

President of the Association.

Worcester, September 8, 1849.

SUFFOLK BRANCH.

To the Members of the Suffolk Branch of the Provincial Medical and Surgical Association.

Mr. Bree, the Honorary Secretary, would feel obliged to those gentlemen in his Branch, who have not paid their subscriptions for the current year, or who are in arrears, to forward the amount to him, as he is making up his accounts for the year.

Mr. Bree takes this opportunity also of soliciting subscriptions and donations to the Benevolent Fund. A subscription of five shillings from each member would make up the present great desideratum—i.e., the reserve permanent fund of £2000.

NOTICE TO MEMBERS.

The Secretary presents his compliments to those members of the Provincial Medical and Surgical Association whose Subscriptions remain in Arrear, and begs respectfully to call their attention to the following Law, which was passed unanimously at the Anniversary Meeting, held at Bath, in 1848:—

“If any Member's Subscription remain unpaid twelve months after it shall have become due, the Medical Journal and other publications of the Society shall be withheld from such Member till his arrears be paid.”

He earnestly entreats all those gentlemen whose Subscriptions are now in arrear, that they will cause them to be paid, either to himself, or to the Treasurer, Dr. Hastings, without further delay.

JAMES P. SHEPPARD,

Secretary to the Association.

Worcester, August 6th, 1849.

ERRATA.

The paper “On Aneurism of the Aorta,” read by Dr. C. H. Kingdon, at Exeter, should have been stated as from *E. P. Pridham, Esq.*

In Dr. Durrant's paper, page 481, first column, line 57, for “palpitation” read “pulpation.”

TO CORRESPONDENTS.

Labour in Hemiplegia.—Dr. Simpson, of Edinburgh, is engaged in some experiments on the expulsive action of the uterus, after division of the spinal cord. He is anxious to obtain notes of cases of labour, occurring in complication with hemiplegia, and also cases of anencephalous monsters. If any of our readers have the means of complying with his wishes, by forwarding their notes to him, they will be doing a service to science, as well as conferring a favour upon the Professor.

The account of the meeting at Bangor arrived too late for insertion, it will appear in our next number.

Communications have been received from Mr. Roe, Mr. Humphry, Mr. Greenhow, Mr. Hawkes, Dr. Watmough, Mr. Ley, and Mr. Loyd.

It is requested that all letters and communications be sent to J. H. Walsh, Esq., Foregate Street, Worcester. Parcels and books for review may be addressed to the care of Mr. Churchill, Princes Street, Soho.
