

BMJ - Decision on
Manuscript ID
BMJ.2016.036125.R1

Body: 24-Feb-2017

Dear Dr. Evoniuk:

Manuscript ID BMJ.2016.036125.R1 entitled "Impact of study outcome on submission and acceptance metrics for peer-reviewed medical journals: a 6-year retrospective review of all completed GlaxoSmithKline human drug research studies" which you submitted to BMJ,

Thank you for sending us your revised paper. We are pleased to say that we would like to publish it in the BMJ subject to a couple of minor revisions.

1. Please provide 95% confidence intervals for the percentages reported in tables 1 to 3.
2. Please check that you have provided the items listed below. I think you have most of them but the ones I couldn't see were a copyright statement, funding statement and competing interests statements for each author. Please forgive me asking if you have already done these.

We are looking forward to reading the revised manuscript and, we hope, making a final acceptance decision.

Please note that the BMJ might choose to shorten content or replace or re-size images for the print issue.

*** PLEASE NOTE: This is a two-step process. After clicking on the link, you will be directed to a webpage to confirm. ***
