Dear Damon and colleagues,

Manuscript ID BMJ-2018-048032 entitled "Healthy people, healthy communities, and healthy planet: A triple aim for all of us"

Thank you for letting us consider your resubmitted manuscript, which we discussed at our editorial meeting. I've attached an edited word document that includes some edits, queries and requests. We are pleased to make a provisional offer of publication if you are able to revise it to address the points made in the document.

We hope that you will be able to revise the paper and send it back to us within three weeks. When you resubmit, could you kindly ensure that you provide:

(a) A covering letter outlining how you have responded.

(b) Please check that all the information required in the manuscript (see note below) is included in the revised manuscript.

We hope that you will be able to revise the paper and send it back to us within three weeks .

All accepted Analysis articles are published on thebmj.com, the canonical version of the journal. Please note that only a proportion of accepted Analysis articles will also be published in print. Please note that the BMJ might choose to shorten content or replace or re-size images for the print issue.

To revise your manuscript, log into <https://mc.manuscriptcentral.com/bmj> and enter your Author Center, where you will find your manuscript title listed under "Manuscripts with Decisions." Under "Actions," click on "Create a Revision." Your manuscript number has been appended to denote a revision.

You may also click the below link to start the revision process (or continue the process if you have already started your revision) for your manuscript. If you use the below link you will not be required to login to ScholarOne Manuscripts.

\*\*\* PLEASE NOTE: This is a two-step process. After clicking on the link, you will be directed to a webpage to confirm. \*\*\*

You will be unable to make your revisions on the originally submitted version of the manuscript. Instead, revise your manuscript using a word processing program and save it on your computer.

Once the revised manuscript is prepared, you can upload it and submit it through your Author Center.

When submitting your revised manuscript, you will be able to respond to the comments made by the reviewer(s) in the space provided. You can use this space to document any changes you make to the original manuscript.

**IMPORTANT:** Your original files are available to you when you upload your revised manuscript. Please delete any redundant files before completing the submission.
