

<b>Requested revision</b>	<b>Page Number</b>	<b>Summary of final revision for cover letter</b>
Include titles and affiliations for authors	1	We followed the example given.
Competing interest statement	8	No authors have a competing interest to declare. We followed the example provided and added - "We have read and understood BMJ policy on declaration of interests and have no relevant interests to declare."
Reduce references to 25	Throughout	We have reduced the citations to 25 total, primarily by selecting a single citation where several were provided in support of a single idea. We have made minor edits to the text as needed.
Gundersen case study – update to include community role	3	We edited the case study with assistance from the leader primarily responsible for the effort. It now specifically includes the partners involved in each element of the overall effort for sustainability.
Stockholm case study – update to include community role	3	<p>We added "The Wise List is primarily used in in primary care, and the adherence to the drug formulary is very high."</p> <p>In general, within the Swedish health care sector, the regional governance level does not interact with the community at a high level. Rather, that is more the role of the municipality. However, community support for the effort is demonstrated by staff adherence to the guidelines in the primary care context.</p>
Vienna case study – update to include community role and	5	We clarified that the patient numbers are per year.

clarify patient volume		
New Zealand case study – give a sense of scope	4	We added the following phrase – “an urban area with about 1.6 million people.” While the initial environmental result is small, economic benefits are also noted. The effort is important to include as an example of cross-cultural community engagement as a health strategy.
